4 **ABSTRACT OF THE DISCLOSURE**

5 Disclosed is a system and method for electronic-based communication between a
6 plurality of remote users. The system includes a plurality of remote workstations,
7 interconnected via a communication network, so that users may simultaneously view a target
8 file. Further, the system may permit one or more of the users to view additional information,
9 such as annotations or notes that relate to the target file. Such additional information may be
10 part of the target file or it may be a separate file that corresponds to the target file. Also
11 disclosed are methods for using such a system.
